

# Vandana Kumari

Jaipur, Rajasthan, India | vandanasinghbhore04@gmail.com  
LinkedIn | GitHub

## PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building scalable web applications and backend microservices. Proven track record shipping production-grade code using React, Node.js, Spring Boot, and PostgreSQL. Pursuing AI Engineering with Python and GenAI. Strong systems design thinking and collaborative teamwork in enterprise environments.

## PROFESSIONAL EXPERIENCE

- |                                                                                                                                                                                                                                                                                                                                                                                               |                                       |

## TECHNICAL SKILLS

- Languages:** Java, JavaScript, Python, HTML5, CSS3
- Frontend:** React.js, REST APIs, Responsive Design
- Backend:** Node.js, Express.js, Spring Boot, Microservices Architecture
- Databases:** PostgreSQL, MongoDB, Database Design and Optimization
- Tools & Platforms:** Git/GitHub, Docker, Salesforce, Appian, Linux
- Emerging Skills:** Python, Generative AI, System Design, AI Engineering

## EDUCATION

- |                                                                                                       |                                                            |
